

## 1. BEST COURSES

BEST, Board of European Students of Technology, is a constantly a growing non-profit and non-political organisation. Since 1989, it provides communication, co-operation and exchange possibilities for students all over Europe.

95 Local BEST Groups (LBGs) in 33 countries are creating a growing, well-organised, powerful, young and innovative student network.

BEST strives to help European students of technology to become internationally aware by reaching a better understanding of European cultures and developing capacities to work in an international environment. Therefore, it creates opportunities for the students to meet and learn from one another through academic and non-academic events and educational symposia. A good working environment is necessary, therefore, services such as an international career centre to broaden the horizons for the choice on the job market are offered.

High quality services for students all over Europe are prioritized, it is easier to bring all the partners in the "student - company - university" triangle closer.

A BEST Course is an optimised event for two weeks and should fulfil the general criteria: provide new knowledge or skills for participants being taught by professionals.

## 2. ATHENS PROGRAMME

The ATHENS Programme (Advanced Technology Higher Education Network/Socrates) is a 1-week exchange session held twice a year (in March and November) by a network of European higher-education institutions.

The programme is coordinated by ParisTech.

The courses proposed during the sessions cover not only the spectrum of the members' fields but also an opening on arts and humanities.

During the week, the host university is supposed to organize activities in the city, for the foreign students to help them discover another culture. Most often, it will consist of a 5-day course on a specific subject, a city tour and some nights with the local students.

## 3. SUMMER SCHOOLS

Many universities around the world organise a summer school every year. The summer schools long usually from 7 to 30 days. Each summer school has its focus on some special topics, which enrich student in another way. Surely watch our site and if you have a chance to go, you should go, because your experience will be useful in the future many times

## 4. UNIVERSITY WORKSHOPS AND OTHER INTERNATIONAL PROJECTS

Many universities around the world organise some university workshops or some international project for foreign students, where our students have chance to go. All information will be available here:
