1ST CONFERENCE CIRCULAR

The Masaryk Institute of Advanced Studies of the Czech Technical University in Prague invites you to the 12th annual professional conference.

REGIONAL DEVELOPMENT BETWEEN THEORY AND PRACTICE

on the topic

REGIONAL DEVELOPMENT AS PART OF EUROPE'S SUSTAINABLE TRANSFORMATION

Thursday, 1 June 2023

at the Masaryk Institute of Advanced Studies
Czech Technical University in Prague,
Kolejní 2637/2a, Praha 6 - Dejvice

The conference is held under the auspices of the director of the Masaryk Institute of Advanced Studies CTU in Prague, Prof. PhDr. Vladimíra Dvořáková, CSc.

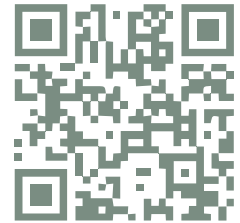

Before European society could cope with the effects of the Covid-19 pandemic, new problems were arose caused by Russian aggression in Ukraine. This has brought not only new security threats and a new wave of migrants, but also new and hitherto unexpected problems in terms of energy prices and availability. All these problems must be tackled not only by Europe as a whole, by individual states, but also by every region, city, or municipality. The aim of the conference is to create a platform for the transfer of new scientific knowledge and experience, how to analyse and solve the problems that have arisen, i.e., to propose ways, tools, and innovations for dealing with their consequences.
