

About MIAS

Masaryk Institute of Advanced Studies (MIAS) is a part of the **Czech Technical University** (CTU) in Prague. CTU is the oldest Technical University in Central Europe and the oldest Public Technical University in the world. MIAS endeavours to connect engineering with business. The Institute offers study programmes delivered in Czech and English, and educates managers with highly specialized skills, good at languages and ready for Trade and Industry, including leading Tech Companies.

Foreword by prof. Vladimíra Dvořáková MIAS CTU Director

“Thirty years of inspiration
that changed into the future.”

You are holding in your hands a brochure introducing our institute which celebrated 30th anniversary of its existence in 2022. The development MIAS has undergone during that time is great. From an institution offering professional services to other CTU faculties and public, we have transformed to an institute with full-fledged accredited Degree Programmes in the fields of Economics, Management and Innovation.

The combination of economic education and a background of technical university help us to produce managers with strong technical skills, knowledge and well-equipped with languages. Language education has always been strongly emphasized at MIAS and our students can choose from a wide scale of language courses. We are proud that our graduates do not lack a very needed practical overview which they gain thanks to the internships they complete during their studies. At MIAS, we pay the equal attention to gaining international experience from the first years of study whether through participation in Exchange stays or in one of the specialized courses or projects.

I believe you´ll find this brochure useful and hopefully we will be delighted to cooperate with you or welcome you at MIAS as its student.
Good luck and see you!

Economics and Management

BSc.

Tuition: **38 000 CZK/ semester**
Type of Study: **Full-Time**
Length of Study: **Three Years**

ADMISSION
PROCEDURE

LIST OF
COURSES

Description

The undergraduate three-year Economics and Management Programme prepares students for professional work in international teams and entry-level managerial positions in Industry, Commerce, Consulting and Public Administration. Graduates may continue in their studies in Master Degree Programme at MIAS CTU or anywhere else in the world.

How to get international experience

IPW

IPW
<https://www.muvs.cvut.cz/en/ipw/>
International Project Workshop (IPW) is an international project of MIAS CTU and its Partner Universities. It combines University Education and work experience. Its uniqueness lies in the fact that students work in an international team and complete real tasks designed for them by representatives of Major International Companies. Students may gain useful contacts, which help them build their future careers. IPW is intended for Bachelor Students but any student keen to learn new things can apply.

ATHENS
<https://international.cvut.cz/students/incoming-students/athens/>

ATHENS programme (Advanced Technology Higher Education Network) is a 7-day scientific and cultural Exchange programme offered twice a year by major European Technological Universities. The principal goal of the Network is to facilitate the exchange of students, teachers, and researchers.

EuroTeQ
Engineering
University

EuroTeQ
<https://euroteq.cvut.cz/en/>
is alliance of six leading European Technical Universities, located across Europe. EuroTeQ partners offer selected virtual courses and challenges to all their students. The courses are offered in English and mostly online, to promote virtual mobility across partners.

EXCHANGE STAYS AND PARTNER UNIVERSITIES
<https://www.muvs.cvut.cz/en/international-cooperation/>
MIAS currently offers a wide range of both European and non-European partner Universities to which our students and employees can travel on exchange stays. The international cooperation with our partners is not only focused on exchange of students or academic staff, but also on building closer relations when organizing joint projects, activities or shared courses.

- 7 reasons to choose MIAS
- 1 Good location
 - 2 Combination of Business and Technology
 - 3 Individual approach to the students
 - 4 Small number of students in the class
 - 5 Balanced proportion of theory and practice
 - 6 Part of internationally recognized University – Czech Technical University in Prague (CTU) with more than 310 years of tradition and excellent reputation
 - 7 Excellent choice of sport activities

Feedback of students on their studies at MIAS CTU in Prague

Andres | 36 | Bolivia

Innovation Project Management MSc.

„Studying in Prague has changed my life. I've got to experience what is it like to live in Europe, study in an international environment, learn to manage my time, practice new sports, learn to survive in a country with a different language, travel, grow, amaze myself of how beautiful the city is, and prove myself that I can do it.

I would recommend, if you decide to take this journey, take it fully, not half way, enroll in extra curricular activities, socialize, work and learn, but most importantly, enjoy.“

Mariia | 25 | Ukraine

Innovation Project Management MSc.

“Studying at MIAS CTU was my second Master's degree, and it turned out to be one of the most fulfilling experiences of my life. I loved being there: the international environment, the chance to meet people from so many different countries, and the way we all learned from each other made me feel part of something bigger.

What I appreciated most was how alive the program felt: it wasn't just theory, but real practice through sprints, workshops, and moments with inspiring professionals and companies who showed us how everything works beyond textbooks. Those experiences made me feel motivated, confident, and grateful for choosing this direction and this university.”

9 reasons to choose PRAGUE AND THE CZECH REPUBLIC

- 1 Safe and developed country
- 2 Part of the EU and Schengen Area
- 3 Dense Public Transport network in the whole country
- 4 Affordable living costs
- 5 Good Public Transport in Prague
